

**Team:** Team 13

**Inject Number:** 9

**Inject Duration:** 90 Minutes

**Inject Start Date/Time:** Sat, 09 Jan 2016 11:51:59 -0800

**From:** Lone Star

**To:** IT Staff

**Subject:** Security Best Practices

You have probably noticed the Red Team has engaged and I assume you folks have a plan. It is not like this is your first time at the picnic. Please find whatever security resources, recommended steps, best practices, strategies, etc for securing and optimizing a network environment. Citing your source(s), provide a report broken into three sections.

Section #1: What steps have you already taken?

Section #2 What immediate steps are you taking in the next 60 minutes?

Section#3: Where are your priorities before the end of the day? What you are looking for and any specific steps or plans you wish to execute?

If necessary, you should include needed performance optimizations or required configuration changes. Please have this done in 90 minutes and remember this is going to our executives. Make it look professional.

Thank you.
