Subject: WRCCDC Invitational

Good morning competitors!

Welcome to the Western Regional Collegiate Cyber Defense Competition (WRCCDC)! This memo is an example of an inject (task) that will be sent to this interface - the inject scoring engine (ISE) - throughout the competition. Each inject will instruct your team to complete tasks within a specified amount of time. The amount of time needed to complete these tasks will vary and will be stated for each inject and teams are responsible for their own time management.

New injects will be displayed on the ISE dashboard in a way similar to this one. Old injects are always available and will not disappear after they expire. The dashboard will automatically refresh itself every minute to display new injects as they are released. It is highly suggest that the dashboard page be open and visible on a computer at all times. Teams will not be actively notified that new injects have been released. The only notification will be a new inject appearing on the dashboard.

Another reason to keep the dashboard open is to receive notifications sent by the coordinators (White Team). These notifications will be displayed at the top of the dashboard page for a limited time. All notifications can be accessed using the link in the left-hand navigation box. Please watch carefully.

Note that this is one of the only injects that is expected to change throughout the competition. If an inject is changed after being released, a notification is usually sent out. Clicking on the link for the inject will download the newest version of the inject.

Please contact the James via the Netlab chat feature if you have questions about your pod or environment. The White Team can be

reached via the WebEx session. Before you call READ EVERY INJECT CAREFULLY!!!

Good luck competitors!

Thank you.

Philip Carson

Subject: Accept Invitational Rules

DO NOT DISCLOSE YOUR SCHOOL NAME IN ANY COMMUNICATIONS

DO NOT DISCLOSE YOUR SCHOOL NAME IN ANY COMMUNICATIONS

DO NOT DISCLOSE YOUR SCHOOL NAME IN ANY COMMUNICATIONS

Disclosure of your school name is very bad. Disclosing your School name during CCDC Qualifiers could result in disqualification and expulsion from the competition. Please get used to only identifying yourself using your assigned Team Number

Welcome again to the WRCCDC. We ask each team to respond to this inject via the Blue Team Portal and verify to the White Team you have access to the system and are receiving injects.

- WRCCDC White Team
Inject Instructions:

==================
Please respond to this inject by copy/pasting the text below into a document, answer the questions as required and upload the completed document to the Blue Team Portal in the next 15 minutes.

Our Team Number is_____
1) Yes, we affirm all team members understand competition rules.
2) Yes, we affirm all team members agree to abide by the rules of the competition.
3) Yes, we affirm we have access to the pod and the Netlab.

4) Yes, we understand we should not to identify ourselves by School name.

If you have any difficulties in accessing the competition environment, or encounter a technical issue that requires attention, please immediately contact us. GOOD LUCK, and have fun!

- White Team

Thank you.

Subject: Netlab Credentials

Using your team number, you can derive your Netlab credentials. The schema looks like this:

wrccdc(team#)(competitor#)

Examples:

Team 1: wrccdc11 through wrccdc18 (8 accounts)

Team 13: wrccdc131 through wrccdc138

Your password will be 09fjFDlknl1

Each competitor needs to use a separate Netlab account.

The URL for the Netlab environment is http://bender.wrccdc.csupomona.edu

Please provide a submission after you successfully logged in to the Netlab environment and were able to access your pod. Please call or notify us in the WebEx if you encounter issues.

DO NOT PRESS THE *"WE'RE DONE"* BUTTON

Thank you.

WRCCDC Invitational 2014

Hashing

Inject Number: 12

Competition: WRCCDC Invitational - 9/20

From: Philip Carson

To: IT Staff

Subject: Hashing

We can consider modifications to files as a reportable security incident. Please calculate hash values for all the files located on Rocket. Please submit an electronic report of the hashes to the blue team portal.

Thank you.

Subject: Create a new Password

I have been ask to have your create a new admin account across all your systems so an already written script can be used.

Username: test

Password: test1234

This should be done in the next 20 minutes unless this is against your password policy. Confirm the account creation by uploading text file to the Blue Team Portal. If creating such an account is against an established policy, please submit a copy of the policy instead.

Thank you.
