Subject: Temp Sensor Look And Feel

Hey team,

The temperature sensor interface is pretty awful. Can you all take a look at it? I spoke with the developer last week, and he said that the "original" style settings were still on there, and we just need to use those to replace the current style settings. I don't know anything about how it works, but I'm sure you guys can figure it out in the next 60 minutes. Let me know what you changed and when it is ready in a submission.

Thank you.

B.G. Cheese
